ANNUAL RESULTS ANNOUNCEMENT FOR THE YEAR ENDED 31 DECEMBER 2019

CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

This announcement, for which the directors (the "**Directors**") of Astrum Financial Holdings Limited (the "**Company**") collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the "**GEM Listing Rules**") for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief, the information contained in this announcement is accurate and complete in all material respects and not misleading or deceptive and there are no other matters the omission of which would make any statement herein or this announcement misleading.

Its parent and ultimate holding company is Autumn Ocean Limited, a company incorporated in the British Virgin Islands (the "**BVI**") and wholly-owned by Mr. Pan Chik ("**Mr. Pan**"), the controlling shareholder, an executive director and the chairman of the Company.

The Company is an investment holding company. The Company and its subsidiaries (collectively referred to as the "**Group**") is principally engaged in the provision of brokerage services, placing and underwriting services, corporate finance advisory services, financing services including securities and initial public offering financing and asset management services.

2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs")

New and amendments to HKFRSs that are mandatorily effective for the current year

The Group has applied the following new and amendments to HKFRSs issued by the Hong Kong Institute of Certified Public Accountants ("**HKICPA**") for the first time in the current year:

HKFRS 16	Leases
HK(IFRIC)-Int 23	Uncertainty over Income Tax Treatments
Amendments to HKFRS 9	Prepayment Features with Negative Compensation
Amendments to HKAS 19	Plan Amendment, Curtailment or Settlement
Amendments to HKAS 28	Long-term Interests in Associates and Joint Ventures
Amendments to HKFRSs	Annual Improvements to HKFRSs 2015–2017 Cycle

Except as described below, the application of the new and amendments to HKFRSs in the current year has had no material impact on the Group's financial positions and performance for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

HKFRS 16 Leases

The Group has applied HKFRS 16 for the first time in the current year. HKFRS 16 superseded HKAS 17 *Leases* ("**HKAS 17**"), and the related interpretations.

Definition of a lease

The Group has elected the practical expedient to apply HKFRS 16 to contracts that were previously identified as leases applying HKAS 17 and HK(IFRIC)-Int 4 *Determining whether an Arrangement contains a Lease* and not apply this standard to contracts that were not previously identified as containing a lease. Therefore, the Group has not reassessed contracts which already existed prior to the date of initial application.

For contracts entered into or modified on or after 1 January 2019, the Group applies the definition of a lease in accordance with the requirements set out in HKFRS 16 in assessing whether a contract contains a lease.

As a lessee

The Group adopted HKFRS 16 using the modified retrospective method of adoption with the date of initial application of 1 January 2019. Under this method, the standard is applied retrospectively with the cumulative effect of initially applying the standard recognised at the date of initial application as an adjustment to the opening retained profits and comparative information has not been restated.

The Group also elected to use the recognition exemptions for lease contracts that, at the commencement date, have a lease term of 12 months or less and do not contain a purchase option ("**short-term leases**"), and lease contracts for which the underlying asset is of low value ("**low-value assets**").

On adoption of HKFRS 16, the Group recognised lease liabilities in relation to leases which had previously been classified as 'operating leases' under the principles of HKAS 17. These liabilities were measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate as of 1 January 2019. The right-of-use assets were recognised at amount equal to the related lease liabilities adjusted by any prepaid or accrued lease payments.

There is no impact of transition to HKFRS 16 on the assets, liabilities and retained profits at the date of initial application.

HKFRS 8, *Operating Segments*, requires identification and disclosure of operating segment information based on internal financial reports that are regularly reviewed by the executive directors of the Company, being the chief operating decision maker (the "**CODM**"), for the purposes of resource allocation and performance assessment. During the year, the CODM assesses the operating performance and allocates the resources of the Group as a whole as the Group is primarily engaged in the provision of brokerage services, placing and underwriting services, corporate finance advisory services, financing services including securities and initial public offering financing and asset management services. Therefore, the directors of the Company consider that the Group only has one operating segment.

MANAGEMENT DISCUSSION AND ANALYSIS

MARKET REVIEW

The Hong Kong securities market was volatile in 2019. The Hang Seng Index well performed in the early months of the year. It pulled back sharply in May as expectations over the US-China trade negotiations failed to materialize. In the second half of year, due to the continuing social unrest, retail sales and inbound tourism have been adversely affected. The Hong Kong economy entered recession in the third quarter. These uncertainties have also affected the overall performance of the Hong Kong stock market with the Hang Seng Index fluctuating between 25,000 and 30,200 during 2019. Despite the recent fluctuating financial market, Hong Kong retained as the world's largest initial public offering market in terms of funds raised in 2019. In 2019, the number of new listed companies decreased by 16.1% to 183 but the fund raising size surged by 9.1% to HK\$314.2 billion. During the Year, the Group completed 11 placing and underwriting engagements as compared to 11 placing and underwriting engagements in the Corresponding Year. PROSPECTS

Entering 2020, the rapid spread of the Coronavirus disease 2019 (the "**COVID-19**") has dealt a severe blow to economic activities and sentiment in Hong Kong. It will also affect production and transportation in China and Asia as well as the global supply chain operation. This will deal a further blow to the global economy. The International Monetary Fund has therefore lowered China's and global economic growth forecasts for 2020 and 2021 recently.

The development of US-China trade relations is the most significant uncertain factor facing the global economy. Moreover, the geopolitical risks in the Middle East and uncertainties surrounding the Brexit negotiations could possibly send shocks to the global financial market and slow down economic recovery while the growth of the China's economy also decelerated recently. Nonetheless, economic fundamentals of China are solid and there are adequate policy tools to maintain macro-economic stability. Once the epidemic is over, the growth of the China's economy is expected to continue to outpace that of other major economies.

The uncertain global economic outlook this year casts a shadow on the Hong Kong stock market. The performance of the Group in 2020 would inevitably be affected. The Group would review and adjust business strategies on regular basis with a prudent and balanced risk management approach, with an aim of striving for sustained income and balanced growth.

Subsequent to 31 December 2019 and up to the date of this announcement, the Group completed 5 placing and underwriting engagements and 1 corporate finance advisory engagement.

Employees' remuneration was determined based on the employees' qualification, experience, position and seniority. Assessment of employee remuneration is conducted annually to determine whether any bonus or salary adjustments are required to be made.

The Group adopted a share option scheme (the "**Scheme**"). Since its adoption, no options have been granted or agreed to be granted pursuant to the Scheme and, therefore, there were no outstanding options as at 31 December 2019 (2018: NIL).

Majority of the employees are licensed with the Securities and Futures Commission of Hong Kong as responsible officers or licensed representatives and therefore are required to comply with the continuous professional training requirements. From time to time, the Group provides in-house continuous professional training and updates on changes or development in the financial industry including the revisions on rules and regulations to update the employees' knowledge and skills so as to maintain their professional competence and keep them remaining fit and proper.

LIQUIDITY, FINANCIAL RESOURCES AND CAPITAL STRUCTURE

During the Year, the Group mainly financed its operations, capital expenditure and other capital requirements by internal resources and net proceeds raised from the Share Offer and occasionally financed its financing services by IPO stagging bank loan facility.

As at 31 December 2019,

- (i) the total assets of the Group amounted to approximately HK\$264.0 million (2018: approximately HK\$226.6 million). - (ii) the total equity attributable to owners of the Company amounted to approximately HK\$183.5 million (2018: approximately HK\$183.5 million), which had no material change due to the contribution of the profit and total comprehensive income for the Year in the amount of approximately HK\$12.0 million and offset by the payment of interim dividends in the total amount of HK\$12.0 million for the first, second and third quarter financial periods in 2019;
- (iii) the net current assets of the Group amounted to approximately HK\$176.9 million (2018: approximately HK\$168.8 million) and the current ratio of the Group, being the ratio of current assets to current liabilities, was approximately 3.2 times (2018: approximately 4.9 times). The net current assets of the Group as at 31 December 2019 and 31 December 2018 remained relatively stable. As the increasing rate of the current liabilities (approximately 84.4%) was greater than that of the current assets (approximately 21.0%), the current ratio of the Group decreased from approximately 4.9 times as at 31 December 2018 to approximately 3.2 times as at 31 December 2019;
- (iv) the total bank balances and cash of the Group, which were substantially denominated in Hong Kong Dollars, amounted to approximately HK\$209.7 million (2018: approximately HK\$170.6 million). Such increase was due to the increase in bank balances in trust accounts of approximately HK\$30.8 million and increase in general accounts and cash of approximately HK\$8.3 million; and

EVENTS AFTER THE REPORTING PERIOD

Following the outbreak of the COVID-19 in early 2020, the global stock markets (including Hong Kong stock market) have fallen sharply due to the pessimistic sentiments of investors about the adverse impact brought by the pandemic on the global economy. In particular, Hang Seng Index dropped from 28,189 as at 31 December 2019 to 22,805 as at the date of this announcement, representing a significant decrease of approximately 19.1%. The Board expects that the COVID-19 pandemic will inevitably bring negative effect on the Group's business. However, due to the dynamic nature of the COVID-19 pandemic, it is difficult for the Board to estimate the extent of its impact on the Group's business and financial position in 2020. The Board is closely monitoring the development of, and the disruptions to the global economy caused by, the COVID-19 pandemic and will timely assess and react actively to its impact on the operation and financial performance of the Group.
